SUMMARY

I am a skilled Data Analyst with experience in analyzing and visualizing data. I use Power BI, Excel, and Tableau to create interactive dashboards, and Python for data handling and processing. I enjoy solving problems and turning raw data into meaningful insights to help make better decisions.

EDUCATION

Degree	Specialization	Institute	Year	CPI
B. Tech	CSE (Data Science)	Gayatri Vidya Parishad (A), Visakhapatnam	2021-2025	8.34
Intermediate	MPC	Sri Chaitanya Junior College, Guntur	2019-2021	9.83
SSC	General	Basara Concept School, Guntur	2018-2019	9.80

PROJECTS

Swiggy Analysis Project (Excel + Tableau + PowerBI + MySQL)

April 2025 – May 2025

- Developed an end-to-end Swiggy Analytics Dashboard using **MySQL**, **Excel**, **Power BI**, and **Tableau**.
- Imported and modeled raw data in MySQL, creating optimized SQL views for reporting.
- Designed Excel dashboards with **slicers**, **pivot charts**, and **visual summaries** for quick analysis.
- Built multi-page Power BI dashboards with **DAX measures** and advanced data modeling.
- Created interactive Tableau dashboards using **SQL View** with filters, visuals, and page navigation.
- Ensured smooth integration across platforms and enabled role-based performance tracking and exploration.

Media Analysis Project (Excel + Tableau + PowerBI + MySQL)

May 2025 – June 2025

- Built **interactive dashboards** for **Facebook Ads** using Excel, Power BI, and Tableau.
- Analyzed** ad spend, clicks, impressions, CTR, and **campaign-wise engagement trends**.
- Compared ad performance across age groups, time periods, and individual campaigns.
- Created dashboards for **LinkedIn Posts** using Excel, Power BI, and Tableau.
- Explored trends in views, reactions, followers, and engagement across topics and weekdays.
- Identified posting patterns and visualized performance using **multi-page LinkedIn dashboards**.

Database-Driven Exercise Monitoring System (Streamlit + Mediapipe + MongoDB)

March 2024 – July 2024

- Built an AI-driven Exercise Monitoring System using **Streamlit**, **MongoDB**, and **MediaPipe** for real-time **workout posture detection**.
- Enabled **trainers** to create/manage groups and assign exercise tasks to **trainees** with **live webcam-based validation**.
- Implemented secure **role-based login**, **password management**, and task progress tracking in **MongoDB**.
- Developed interactive dashboards for trainers and trainees to monitor workout performance effectively.

INTERNSHIP EXPERIENCE

Data Analytics Intern, ExcelR Solutions, Hyderabad (6-Months)

Nov 2024 – May 2025

- Hands-on in Excel, Power BI, Tableau, R, MySQL & Python.
- Learned statistical analysis for data-driven decisions.
- Completed assignments & and 2 analytical projects.
- Earned an internship certificate [\[Certificate Link\]](#).

CERTIFICATIONS

- AI - Variant Intern Certificate* [🔗](#).
- AWS Data Analytics Virtual Intern Certificate* [🔗](#).
- Data Science Master Virtual Internship* [🔗](#).

SKILLS

Programming: Python, R (Basics)

Databases: MySQL, MS SQL Server, MongoDB

Excel: Power Query, Power Pivot, VLOOKUP, Pivot Tables, Macros, Charts and Dashboards

PowerBI: DAX, Power Query, Data modelling, Reports & Dashboard Creation

Tableau: Data modelling, Calculated Fields, Parameters, Filters, Interactive Reports & Dashboard, Storytelling

Data Analysis & Handling: NumPy, Pandas

Data Visualization Libraries: Matplotlib, Seaborn

Statistics: Descriptive and Inferential Statistics, Hypothesis Testing, Probability

Soft Skills: Communication & Presentation, Team Collaboration, Time Management, Critical Thinking, Problem Solving, Attention to Detail
